

SFB 1083 Workshop – Interfaces of 2D Materials

Wednesday, 15.07.2015, 15:00 h
Kleiner Hörsaal, Renthof 5, FB Physik

15:00 - 15:15 Coffee

Chair: Prof. Dr. Ulrich Höfer

15:15 - 15:45 **Dr. Tineke Warncke**

Optically bright p-excitons indicating strong Coulomb coupling in transition-metal dichalcogenides

15:45 - 16:15 **Dr. Arash Rahimi-Iman**

Optical characterization of transition-metal-dichalcogenide monolayers and heterostructures

16:15 - 16:45 **Jan Kuhnert**

Raman spectroscopy and magneto-optical investigations of transition metal dichalcogenides (2D TMDCs)

16:45 - 17:15 **Dr. Gerson Mette**

Survey of non-linear optical studies on transition metal dichalcogenides
