Session I (Chair: Prof. Dr. Ulrich Höfer, Marburg)

14:00 - 14:40 **Prof. Dr. Claus Ropers (Göttingen)**
*Recent progress in developing ultrafast transmission electron
microscopy using laser-triggered field emitters*

14:40 - 15:20 **Prof. Dr. Mackillo Kira (Marburg)**
The riddle of quantum processes, clusters, and interfaces

15:20 - 15:50 Coffee Break

Session II (Chair: Prof. Dr. Christian Jooss, Göttingen)

15:50 - 16:30 **Dr. Martin Wenderoth (Göttingen)**
*Charge dynamics at semiconductor surfaces investigated by time
resolved Scanning Tunneling Microscopy*

16:30 - 17:10 **Prof. Dr. Gregor Witte (Marburg)**
*Optoelectronic studies of crystalline molecular thin films and hetero-
structures*

17:10 – 18:10 **Labtour Renthof**

18:30 – 20:00 Dinner
